

1/8 Cow Package

An eighth of one of our naturally raised beef steers. This is a minimum of 50 pounds of locally raised meat right from our small family farm to your home. A quarter of beef takes up between 3 cubic feet of freezer space. A manual defrost chest freezer is best for long term storage. Our meat comes back cut, flash frozen and vacuum sealed to preserve freshness that will last a whole year in a deep freezer. Our 1/8 cow package is a flat price of \$600 and are continuously available throughout the year. Ground Beef, Stew Beef & Kabob Beef come in approximately 1 lb packs. Steaks are packaged individually, and roasts range from 2-4 pounds unless otherwise noted.
